ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA:

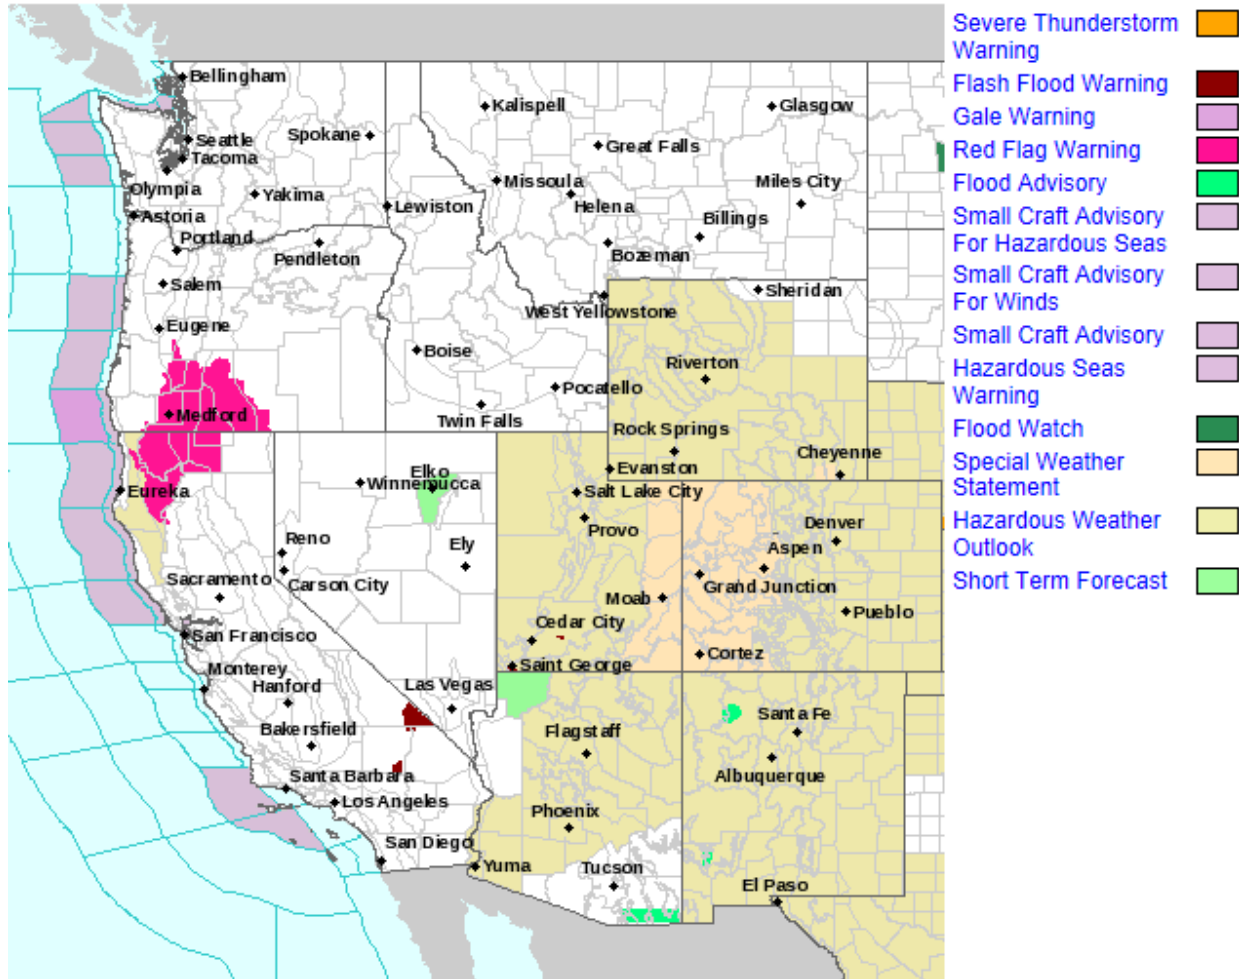

Upper low dropping down from Oregon produced 92 lightning strikes late Sunday across Siskiyou County. This low is currently dropping down along the Northern California Coast and is expected to fire off more thunderstorm activity today across the Northwest Mountains and even parts of the North Coast. There will be some low end wetting rains with this system, but overall deep moisture is missing from this low. If a large volume of strikes occur across the densely timbered areas of Northern California, where fuels are near normal late summer dryness levels, then new fire starts are possible. For this reason a "High Risk" designation was issued for these areas today. There will be some isolated lightning a bit further east, towards the Siskiyou/Modoc County line, but activity there should be more isolated. Same holds true for far northern Mendocino County further south. The low is expected to push southward past the Bay Area on Tuesday, but a fast moving cold front will brush far Northern California with some showers and isolated thunderstorms once again. Diminishing thunderstorm chances for the rest of the week with a return to seasonably warm/dry weather for the latter half of this coming week, along with some light northeast/offshore winds. Winds today and Tuesday will be mainly south to west across most areas at about 8-15 mph, except gusts in the mid 20's over eastern areas. The marine layer is moderately deep at near 1500 feet but will be mixing out and dissipating as the upper low passes overhead. Immediate coastal areas have been quite moist the past few days.

SOUTHERN CALIFORNIA:

An area of low pressure currently off the Northern California Coast will drop southward to Point Conception by Tuesday afternoon and then spin off the Southern California Coast Wednesday into this weekend. Southerly flow aloft between the low pressure area and high pressure centered over the Four Corners Area will bring scattered showers and thunderstorms to the deserts bordering Arizona through Tuesday morning. As the low moves southward it will increase instability across the rest of the region bringing isolated showers and thunderstorms to Central California starting Tuesday and to Southern California starting Wednesday. This low pressure area may pull up moisture from what is currently called Tropical Depression Twelve-E by Thursday and bring a chance of showers and thunderstorms to much of the region into this weekend. There will be southwest winds of 15 to 25 mph with gusts to 40 mph this afternoon through Tuesday afternoon across the mountain ridges and desert passes as the low pressure area approaches the region. Temperatures will cool a couple degrees today, with 80s in the mountains and 90s in the valleys. Temperatures will then drop to between 5 and 10 degrees below normal Tuesday through the end of this week. Minimum humidity will continue to be in the single digits and teens from Los Angeles County northward today and then increase to 15% to 30% Tuesday and Wednesday.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 18th : Don Pedro 42%; Exchequer 18%; Folsom Lake 40%; Lake Oroville 33%; Millerton Lake 47%; New Melones 24%; Pine Flat 12%; San Luis 20%; Lake Shasta 32%; Trinity Lake 31%; Pyramid Lake 94%; and Castaic Lake 44%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)
Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water¹ to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

Situational Summary

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.
http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/emergency_regulations_waterconservation.shtml
- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

- August 27th, Oroville Dam Emergency Action Plan Exercise – Cal OES Inland Region Staff and Cal OES T-Comm Staff will participate in this functional exercise.
- An MRT has been created to provide a MIGU for communications during the Exercise.
- The Warning Center and Region may receive notifications as a result of this Exercise on August 27th.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-5053**, AFRCC reported a PLB sounding in the City of Visalia. When they contacted the registered Owner they found that the device had been lost or stolen. LDO called the registered owner and found that the device had been stolen from his vehicle in the San Luis Obispo area sometime in the last week and he did not know why the device would be sounding in Visalia. LDO contacted Visalia Police Department and found that Visalia police had seized the device in the course of a stolen property investigation. They activated the device in order to determine an owner. LDO provided the owner information to Visalia Police and advised AFRCC and the owner that the device had been located. Device turned off. **Mission Closed**

Ongoing Cal OES Missions

- **2014-LAW-5029**, Butte County requesting HRD dogs for a cold case search. The area to be searched is relatively small but it includes areas of land and water. Cal OES LDO forwarded request to Cal OES Canine Coordinator.
- **2014-LAW-4996**, Monterey County Sheriff requesting 20 ground personnel to assist in the search for a missing person in the Big Sur area of Monterey County. The request is for at least four Type I personnel to search a steep ravine and an additional 16 Type II to search anticipated path, the Pine Ridge Trail. Cal OES LDO coordinating resources.
- **2014-LAW-4901**, Napa County is requesting side scanning sonar capability to assist in the search for a victim of a boating accident believed to be submerged in Lake Berryessa. Santa Clara County has agreed to provide resources for the search which is planned for August 18. The Cal OES Law Duty Officer is coordinating.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
